Wonca Journal Watch

Synopses of articles from the medical literature relevant to family doctors, extracted from family medicine, general and specialist journals.

No data for long term SSRI use

The researchers concluded: «There is a lack of classic randomized controlled trials of serotonin reuptake inhibitors lasting more than 1 year for the treatment of depression. The results of our systematic review support current recommendations for 6–8 months of antidepressant treatment following initial recovery but provide no guidance for longer treatment.»

- Deshauer D, Moher D, Fergusson D, Moher E, Sampson M, Grimshaw J. Selective serotonin reuptake inhibitors for unipolar depression: a systematic review of classic long-term randomized controlled trials. *CMAJ*. 2008;178(10):1293–301. Available from: <http://www.cmaj.ca/cgi/content/abstract/178/10/1293>

Guideline implementation changed some GP behaviour

The researchers concluded: «Using interactive small group workshops to disseminate locally adapted guidelines was associated with improvement in GP's knowledge and confidence to manage asthma, but did not change GP's self-reported provision of written action plans.»

- Liaw ST, Sulaiman ND, Barton CA, Chondros P, Harris CA, Sawyer S, Dharmage SC. An interactive workshop plus locally adapted guidelines can improve general practitioners asthma management and knowledge: a cluster randomised trial in the Australian setting. *BMC Fam Pract*. 2008;9:22. Available from: <http://www.biomedcentral.com/1471-2296/9/22>

What comprises clinical experience in recognizing depression?

The researchers concluded: «The developmental process of attaining comfort in managing depression warrants further exploration. Developing interventions to speed this process offers another approach to enhancing care for the management of depression.»

- Baik SY, Bowers BJ, Oakley LD, Susman JL. What Comprises Clinical Experience in Recognizing Depression? The Primary Care Clinician's Perspective. *J Am Board Fam Med*. 2008;21(3):200–10. Available from: <http://www.jabfm.org/cgi/content/abstract/21/3/200?etoc>

Practical advice from the theatre

«How does one train the nebulous and at times controversial concept of empathy given the breadth and varying depth of individual backgrounds and future needs?»

- de Schweinitz P. When empathy gets old: Practical advice from the theatre. *Family Medicine*. 2008;40(5):318–20. Available from: <http://www.stfm.org/fmhub/fm2008/May/Peter318.pdf>

Allergy prevention

«This article discusses current recommendations for allergy prevention and highlights new insights into allergic disease.»

- Tang ML, Robinson M. Allergy prevention – Current recommendations and new insights. *Aust Fam Physician*. 2008;37(4):204–8. Available from: <http://www.racgp.org.au/Content/Navigation->

International Summerschool in The Netherlands

Topas Europe Association organises, in collaboration with EQuIP, an international Summerschool in August 2008.

The aims are (1.) to increase the knowledge of quality improvement research, particularly to qualify better for a Ph.D. or Habilitation; (2.) to enhance international networking and exchange of new and established researchers in this field.

Period: 26–29 August 2008 (participants arriving 25 August). Location: Nijmegen, The Netherlands. Course fee: 500 euro per person (not including accommodation and dinners).

Information: <http://www.topaseurope.eu/index.php?q=node/7>

Journal Alerts is a free service from Global Family Doctor – Wonca Online. Enrol for Journal Alerts: <http://www.globalfamilydoctor.com/journalalerts/journalalerts.asp>.
Journal Alerts are sent by e-mail on Tuesdays, Wednesdays and Thursdays.
